

REMARKS

This response is being submitted with a Request for Continued Examination.

Applicants have cancelled claims 1-6 and submitted new claims 7-14.

Applicants' claims are directed to downloading of web content while the kiosk is not being used to select and browse web pages. The cited references are all directed to caching of web content while an operator is using the computer to browse web pages.

For similar reasons, Applicants' claims are distinct from those of Goodwin. Therefore, there is no basis for a double-patenting rejection.

Applicants now respectfully request that the pending claims be allowed.

Respectfully submitted,

Paul Martin
